

# CF300

## Ceiling Mount HEPA Filtration Register

### Combining Contamination & Environmental Control

- Inlet filtration for surgical rooms, controlled environment rooms, and anti-room cleanrooms
- Certified HEPA ceiling mount filtration system - 99.997% @ 0.3 micron efficiency
- Equipped with 325 CFM blower to pressurize room
- Filter unit incorporates a secure seal, no leakage
- Attaches directly to HVAC system air supply duct for environmental control
- Fits easily into standard T-Bar ceiling grid
- Easy room-side access for filter replacement - no tools required
- Simple installation
- Electrical consumption: 100 watts @ 110 VAC (equal to a 100 watt light bulb)

**Room Airflow:** Provides approximately 325 CFM (provides 17 air changes per hour for a 12" x 12" x 8" sized room). Additional units can be run in series for added airflow or to accommodate larger room size.

**Output Air Quality:** Up to Class 100 (M3.5) per ISO standard 14644-1

**Dimensions:** Below ceiling grid: 26" (.66M) W x 27" (.68M) L x 3.5" (.088M) H  
Above ceiling grid: 22" (.55M) W x 22" (.55M) L x 12" (.30M) H

**Finish:** Off-white powder coated (matches most T-Bar grids)

**Weight:** 25lbs. (approx.) 11.3 kg

**Distributed By:**
