

E100

Air Filtration System

mazsi
mobile air applied science

An innovative, cost-effective, solution aiding in the control of airborne particulate and odor contaminants for the industrial environment.

Features

- Certifiable to ISO 14644-1 Class 3.5 or Class 100 When Shrouded
- Multi-Directional HEPA/ULPA Filter Airflow
- Patented Filter Air Seal System
- Activated Carbon Pre-filter (molecular and odor control)
- Adjustable Filter Outlet (height, rotation and angle)
- Compact Storage and Easy Mobility
- Clear, Low Static, Fire-Retardant Enclosure Curtain Creates cross-contamination barrier
- Low Voltage, Non-shadowing, Brightness Adjustable, Lighting

Self-contained **mobile system** providing directable ultra clean air **Economical** site-specific solution is provided to protect work and staff. Create a cleanroom when and where there is an **immediate** need. Create a "temporary" cleanroom **mini environment** in any shape based on shrouding shape. **Unmatched ergonomics** to meet your clinical needs.

"Clean Air Anywhere"
